

## DELTA Product Guide

**DELTA-** “A *mathematical* operator used to indicate a change in a value”

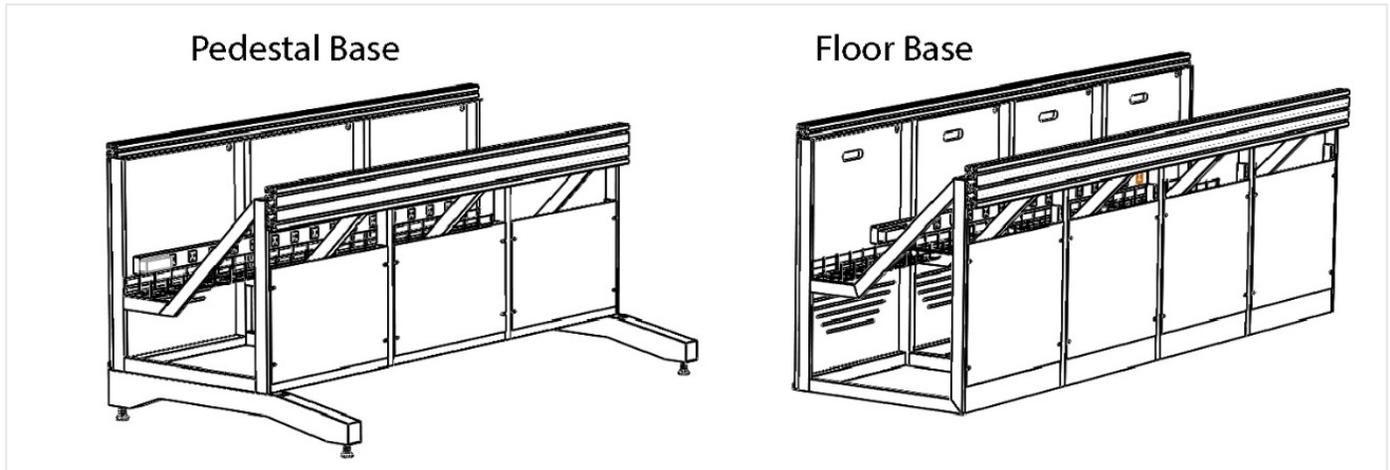

Our DELTA system is a fully modular console system that offers the most comprehensive range of configuration options available.

As technology evolves, our consoles can be easily re-configured. By using state of the art, design tools and CNC manufacturing, we can create or recreate a broad selection of options to support our customer's current and future requirements. All of our designs are based on parametric relationships between assemblies. A broad range of finish options and a clean, functional design, provides a custom aesthetic for any technical environment.

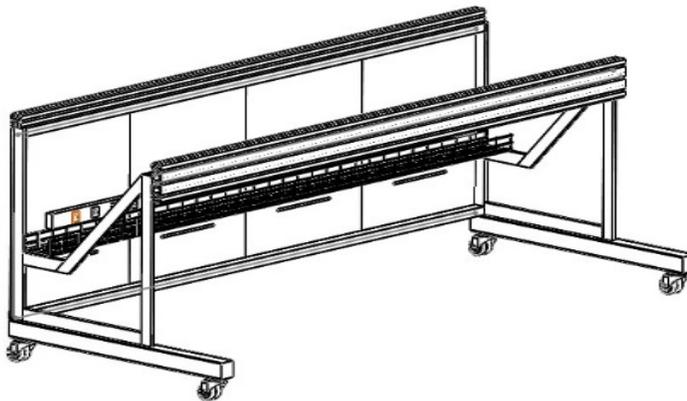

**Console Bases:**

Start with a Base Style- We offer both a “Pedestal Base” and a “Floor Base” in three interior depths: 18”, 22” and 24”. Bases ship with blank panels. Base frames are welded tubular steel.

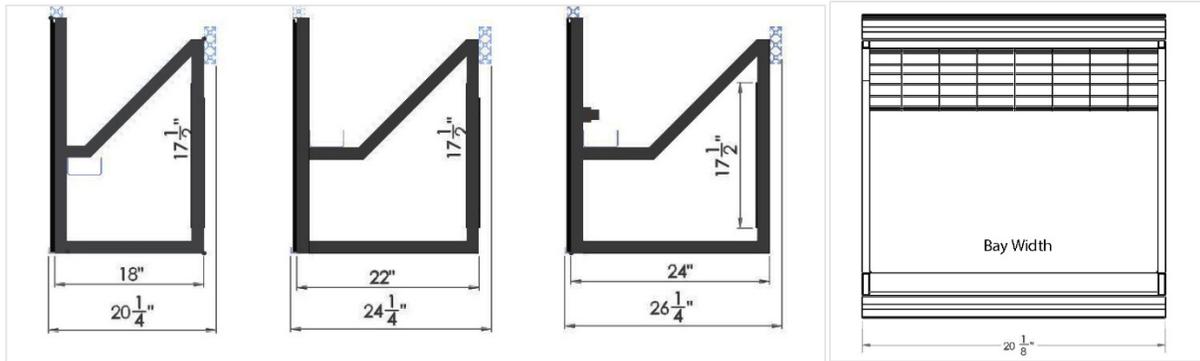

We also offer “Skeleton Bases” when and where you don’t need the under counter rack space. It has identical cable management and power distribution as our standard bases.

Skeleton Base

**Our welded steel frames are far stronger and durable than stamped sheet metal or riveted assemblies.**

**Console Bases cont.**

Console Depths

\*Optional rear rail in console bases is available on request. Cabinet "base extenders" are also available for extra deep equipment.

Bases are available as: (1) Bay, (2) Bay, (3) Bay, and (4) Bay modules. Each Bay is 20 1/8<sup>th</sup> inches wide.

**Turret Selection:**

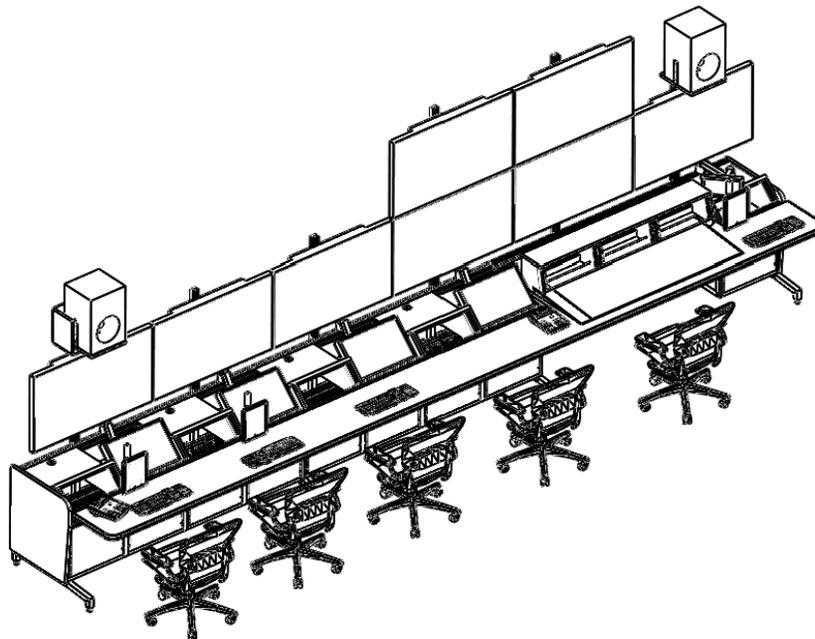

All turrets are interchangeable and can be placed anywhere along the base assemblies.

Some of our Turret Options:

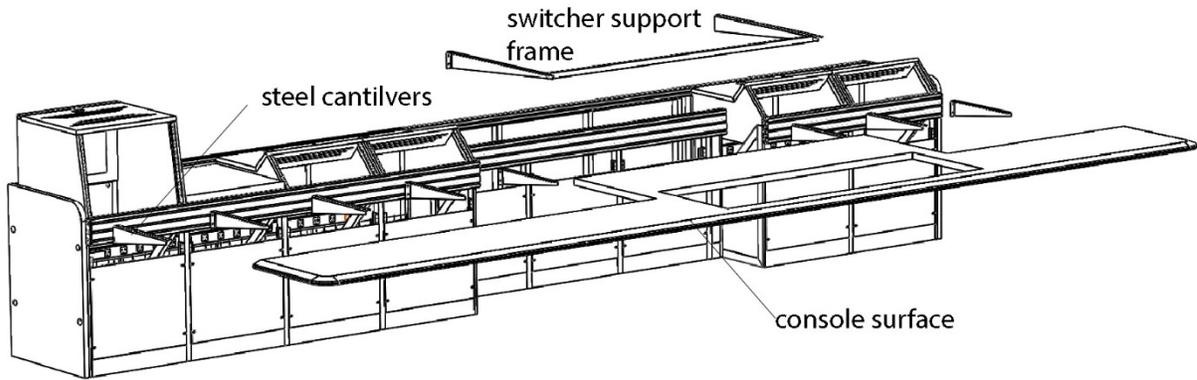

**We can customize “desktop” turrets in many configurations.**

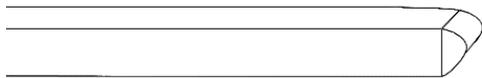

Our Turrets are constructed with durable, High Density Polyethylene. There are no edges for rack mounted equipment to snag, scratch or delaminate. Rear grommets provide easy and ordered access to cable management and power distribution for monitor arms or ancillary gear. Taller turrets have an additional mounting rail for monitor arms and accessories

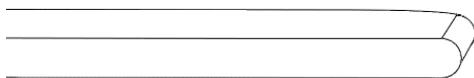

Console Surfaces and Edge Profiles

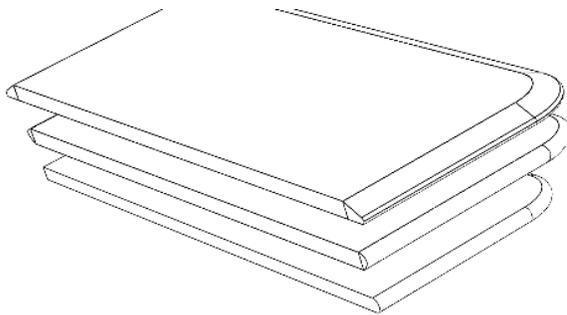

Full Profile Edge Option (Corian or Exotic Wood) 1 7/8"

Standard Molded Black Vinyl 5/8"

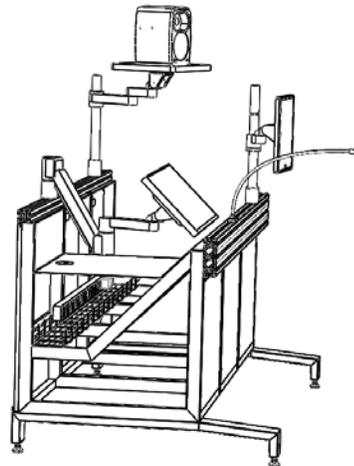

1/2 Round Edge- (for Translucent Acrylic)

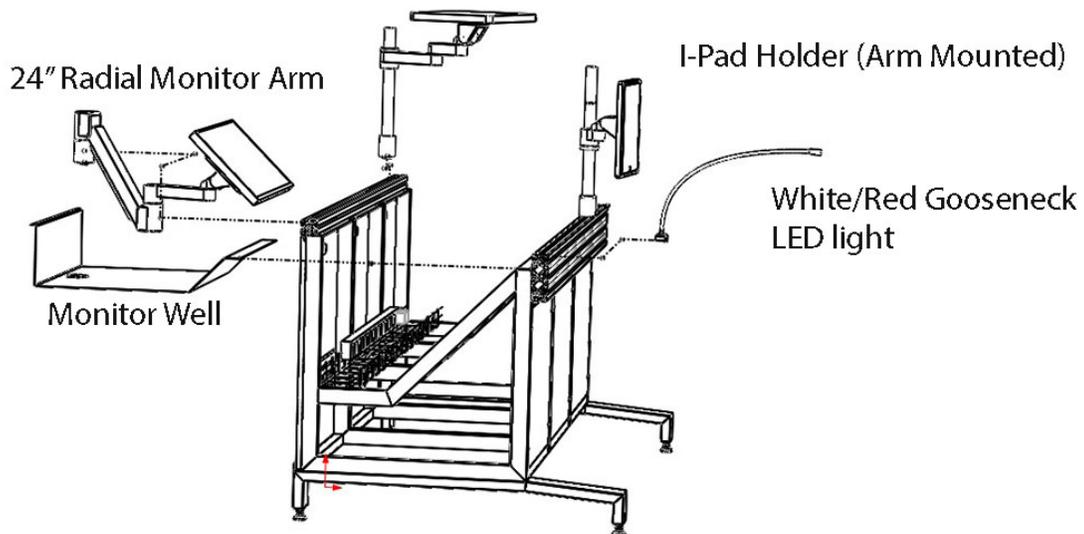

Console Surface options include: Laminate, Solid Surface, Linoleum, 3-Form Chroma acrylic. ([See finish links](#))

**Accessories:**

Articulated Speaker Mount

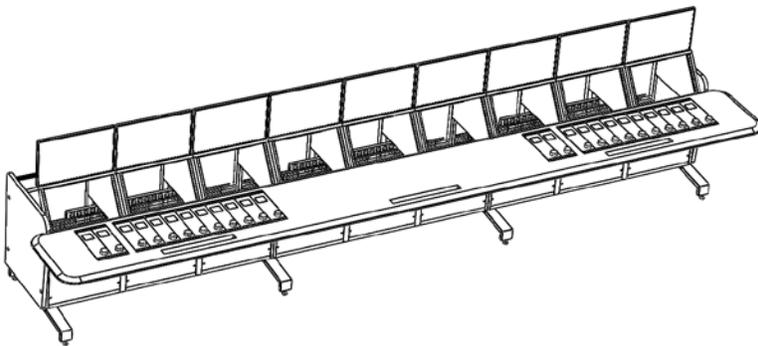

USB/ Edison Grommets, Dual Monitor arms, and Custom Inserts and features are also available.

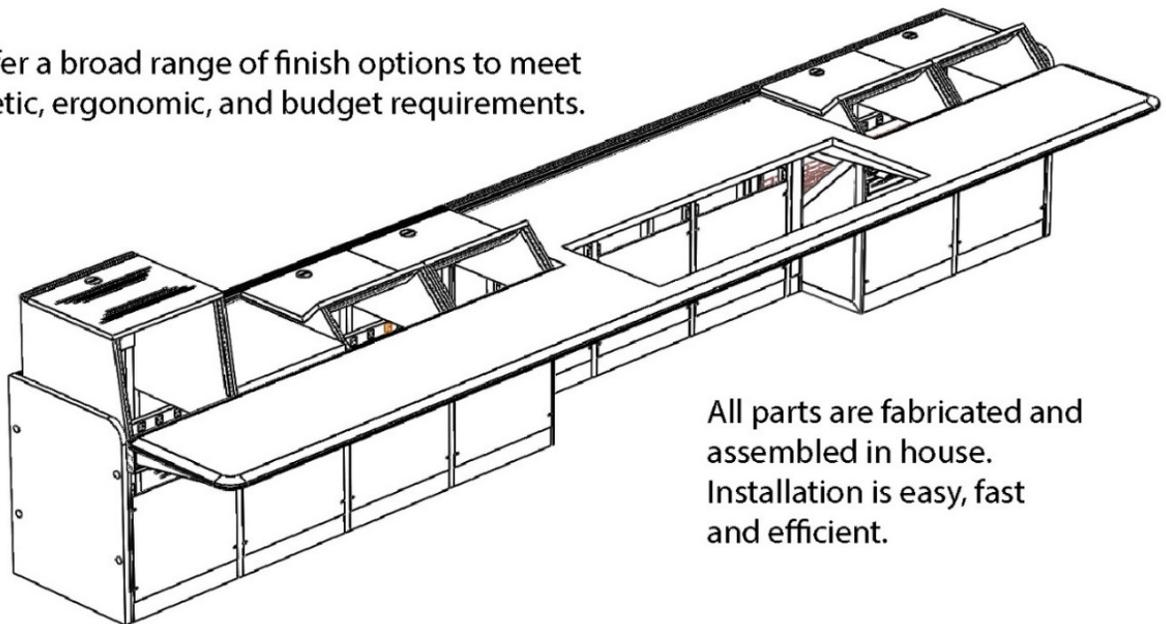

See our [Accessories](#) Page for more information

Console surfaces are supported by cantilevers which are attached to the structural front rail of the console and can be positioned anywhere to accommodate future cut out requirements or other modifications. High Pressure laminate with molded vinyl edge treatment is standard. We offer an optional full profile bull nose in either solid surface or exotic hardwoods.

Custom Support structure and wedges support openings for switchers, remote camera controllers and ancillary items.

We offer a broad range of finish options to meet aesthetic, ergonomic, and budget requirements.

All parts are fabricated and assembled in house. Installation is easy, fast and efficient.
